

## OUR NEWEST ACQUISITION

At our recent convention I found a lovely floral narrow Art Nouveau deck which we had never seen before. It was manufactured in Genoa by Armano, c1900, and the courts are stunning! We wonder if any member could send us more information.

Tom and I do not add many decks to our collection, however this one was irresistible, in spite of the fact it has been well used, has dirty edges and no box, not one we would normally buy. However when it is something you love, it is better to own it than not!
